**Oregon Boiler and Pressure Vessel
Specialty Code 2006 addenda rules**

Purpose of the rules:

These rules adopt [special interim code amendments](#) to the 2004 Oregon Boiler and Pressure Vessel Specialty Code.

Rule highlights:

These rules adopt the following amendments to the Oregon Boiler and Pressure Vessel Specialty Code, which were published by The American Society of Mechanical Engineers (“ASME”) in July 2006:

- Section IV, “Rules for Construction of Heating Boilers.”
- Section V, “Nondestructive Examination.”
- Section VI, “Recommended Rules for the Care and Operation of Heating Boilers.”
- Section VII, “Recommended Guidelines for the Care of Power Boilers.”
- Section VIII, Divisions 1, 2 and 3, “Rules for Construction of Pressure Vessels.”
- Section IX, “Qualification Standard for Welding and Brazing Procedures, Welders, Brazers, and Welding and Brazing Operators.”
- Section X, “Fiber-Reinforced Plastic Pressure Vessels.”

Citation:

Amending OAR 918-225-0430.

Adopting OAR 918-225-0435.
